

RETURN TO TRAINING FRAMEWORK

CLUB REQUIREMENTS

All Hockey Clubs play an important role in:

- Reducing the spread of COVID-19
- Promoting good hygiene practices amongst players and officials
- Adhering and promoting the State Government Requirements around social distancing, and gatherings; and
- Following the protocols and requirements around Return to Training

It is vital that all Club participants, coaches, volunteers, and parents are educated in the key principles of the Return to Training protocols.

The following processes must be undertaken by Clubs:

- **Club will nominate a designated contact person to Peel Hockey. Name, phone number, email address to be provided for the purpose of COVID related communication.**
- Clubs provide training to club officials, team officials and players on COVID safety plan.
- All club officials, team officials and players are to be provided a copy of Peel Hockey Return to Training Framework.
- **All participants must be registered with the club.**
- Venues and clubs schedule training sessions to stagger bookings for arrival and exit.
- If required young participants should be accompanied by one (1) parent/guardian. Parent/Guardian must maintain social distancing and density requirements at all times by maintaining a minimum of 1.5m distance from all people and no more than one (1) person per 4m². Parent/Guardians may not approach team officials or group participants at any time. Should a minor require Parent/Guardian assistance they are to approach the Parent/Guardian away from the group.
- Only essential participants should attend activities:
 - Participants may not exceed the number of participants approved by government restrictions
 - Participants will be calculated including all active and inactive individuals
- Clubs should provide first aid kit, disposable gloves, and cleaning equipment for team officials.
- Clubs should follow up with all participants required to leave a match or training due to illness with flu or COVID like symptoms. If participant tests positive for COVID-19, HWA to be immediately notified as per positive participant protocol.
- If participant tests positive for COVID, designated club contact to notify Public Health via the Coronavirus Information Helpline (13 COVID - 13 26843) and take advice regarding notification and contact tracing

'Get in, Train, Get out'

CLUB CONSIDERATIONS

Has the Club Committee met to discuss the guidelines under which hockey activities will resume at the club? Peel Hockey has developed the Return to Hockey Guidelines to assist you.
Has the Club Committee assigned roles and responsibilities to committee members, coaches, and volunteers to ensure a safe return to hockey for participants i.e. hygiene practices and expectations?
Has the Club Committee developed a pitch usage plan including training dates, times, and procedures to limit team cross over?
Has the Club Committee considered the steps/precautions required should a participant who has used the facility test positive for COVID-19?
Has the Club Committee considered collecting details of participants for contact tracing purposes and asking participants to download the Federal Government Coronavirus Tracking App?
Has the Club briefed its participants on what to do if they are feeling unwell or have been in close contact with people who are unwell?
Is the club providing a safe environment for children?
Have you developed a communication plan for the Return to Hockey Framework for members, coaches, participants, and volunteers? Ensure this is clearly communicated to all stakeholder groups to manage.
